ABOUT PILGRIM VISITS.

We are surprised at the limited number of responses to our request of Aug. 1. issue that *all* desiring visits of "Pilgrims" in future shall write us a postal card at once so saying – and answering the queries propounded in that issue.

We cannot think that the limited number of responses received indicate the measure of appreciation entertained for this Pilgrim service, which is *free* – no collections even. If this service is not appreciated highly we will certainly discontinue some of the Pilgrims, and hereafter endeavor to serve chiefly those who have expressed a desire for such ministries. We feel confident, however, that you have merely overlooked or neglected the matter, and shall hope to have *at once* responses from all who have expressed deep appreciation of the Pilgrim services in the past. We desire the answers on postal cards and by numbers so that they will be compact and uniform and easily referred to. If you know of friends at near-by post offices please mention names of such post offices on the card.

NAMES OF WATCH TOWER POOR LIST.

While we are not only willing but *anxious* to have on our lists the names of all interested in present truth, we nevertheless require that the request come direct from the person desiring the WATCH TOWER; and that the request be repeated each December. One exception would be that any who are contributors to the Tract Fund may send in such names of interested poor brethren, authorizing us to charge up the subscriptions as in offset to their donations. Those who desire the TOWER and hope to pay for it in the future may order it on credit; with the understanding that, if never able to pay, they may at any time have the debt canceled on request.

SEND NO MONEY BY MAIL: IT IS UNSAFE.
