

"BELOVED SON TIMOTHY'S RETURN."

WE HAVE PLEASURE in announcing the safe return of dear Brother E. C. Henniges (and his faithful helpmate) *via* the steamer "Etruria," on November 16. During his absence, of nearly two years, his energy on behalf of the harvest work in Great Britain has been greatly blessed by the Master, as reports from the British Branch from time to time have abundantly demonstrated. The work there is on a far better footing than it has ever been in the past; and under the care of our new representative there, Brother Jesse Hemmery, it will, we doubt not, continue to prosper and gather much ripe "wheat" into the Lord's "garner."

As for Brother and Sister Henniges, we can readily find room for them in the Allegheny office. Indeed the general work is spreading grandly (and we expect it to expand much more during the next six years) and the addition of these efficient helpers to our present force is quite opportune. We trust it will give the editor an opportunity to proceed with the preparation of the VI and VII Volumes of *Millennial Dawn*, from which he has been greatly hindered by the expansion of the various departments of the work during the past two years.

The dear friends in Great Britain will miss our dear Brother and his untiring energy on their behalf; but we trust they will find in dear Brother Hemmery a faithful and good substitute. We commend him to them all. We have every confidence in respect to his character and ability – else we would not have esteemed him the Lord's choice for the position he now occupies. We urge that the British friends support him by their prayers and co-operation accordingly.
